1. Introduction

Access your store through your app anytime, anywhere. The enterprise version of this extension is used to manage inventory of products.

2. Pre requisite

- This extension is dependent on default inventory settings of Magento.
- This can be checked from System→ Configuration→ Catalog→ Inventory.
- Expand the “Product Stock Options” and set the “Manage Stock” option to “Yes”.

3. Installation

Step 1

Check Permissions

Make sure the "app" and "lib" directories of your Magento and all directories inside it have full written permissions or set permissions on the each directory equal to 777 or 0777.

Important! Change all permissions back after installation.

Read more about permission at

http://www.magentocommerce.com/wiki/magento_filesystem_permissions

Step 2

Disable Compilation

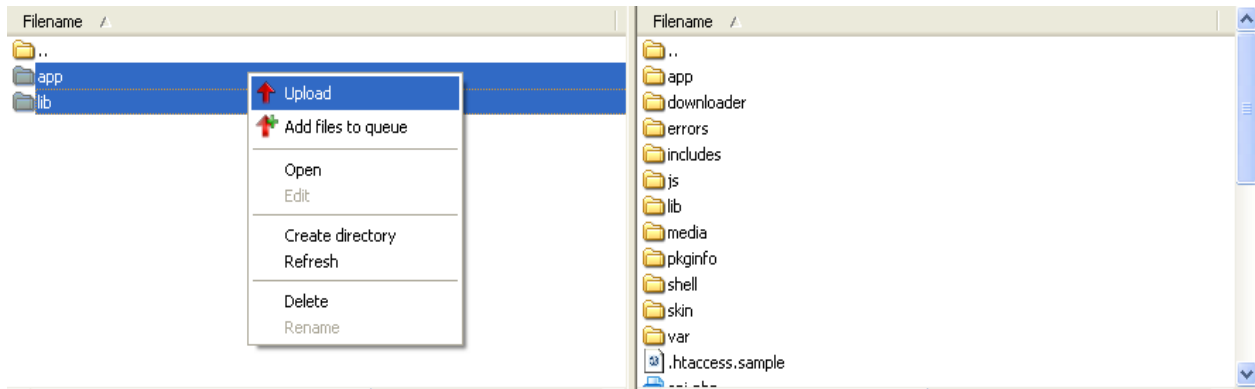

Log into Magento **Admin Panel** and go to **System → Tools → Compilation** and disable the compilation.

After **step 5** you can run the compilation process again.

Step 3

Upload Files

Upload all folders from the extension package to the installation directory of your Magento software using an FTP client.

Step 4

Clear cache

Go to **System → Cache Management**.

Clear the store cache.

Step 5

Re-login

Log out and log back into **Magento Admin Panel**.

Step 6

Use Extension

Go to **System → Configuration**.

In the left column you will see the new tab – **Biztech Extensions**.

4. Extension Activation (Ultimate Version)

Step1

Copy an activation key

Copy the activation key from the Order Confirmation Mail.

OR

Log into your account at <http://store.biztechconsultancy.com> using the email and password you have provided at checkout process.

Go to Downloadable Options and copy the activation key for the **MageMob Inventory** extension.

Step2

Activate the extension

Log into Magento **Admin Panel** and go to **System Configuration→ Biztech Extensions**

/MageMob Inventory Activation and enter the activation key in the "Activation Key" field for the **MageMob Inventory** extension then click the "Save Config" button.

The screenshot shows the 'MageMob Inventory' configuration page. At the top right is a 'Save Config' button. Below the title bar, there's a section titled 'Inventory System Activation'. It contains two main fields: 'Activation Key' with a text input box and a '[STORE VIEW]' link, and 'Select Websites' with two checked checkboxes, 'Demo Website' and 'Main Website', each with its own '[STORE VIEW]' link.

5. Configuration

Please follow the below steps to configure **MageMob Admin** extension.

Professional & Professional+ version:

Go to **System->Configuration**

In the left column you will see the tab **Biztech Extensions -> MageMob Admin**.

- **Enabled:** Select "Yes" to enable the **MageMob Admin** extension. The extension is disabled by default.
- **New Order Notification Message:** Specify your message which will be received on the Mobile app whenever a New Order is received.
- **New Customer Register Notification Message:** Specify your message which will be received on the Mobile app whenever a New Customer is registered.
- **Minimum Quantity Required For Product:** Specify minimum quantity required for product inventory alerts.
- **Product Inventory Notification Message:** Specify your message which will be received on the Mobile app whenever a product quantity is lower than or equal to minimum quantity.
- **Product Review Notification Message:** Specify your message which will be received on the Mobile app whenever a new product review is added.
- **Store Base Url QR code:** Displays QR code for store base Url.

Ultimate Version:

These are some features of MageMob Inventory which are supported with mobile.

Go to **System->Configuration**

In the left column you will see the tab **Biztech Extensions -> MageMob Inventory**.

Step 1: Enable Extension

The screenshot displays the Magento Admin Panel interface. At the top, the header includes the Magento logo, 'Admin Panel', a search bar, and user information. The main navigation bar shows various tabs, with 'System' currently selected. Below this, a message bar indicates a reminder to change default phone numbers. The left sidebar contains a 'Configuration' menu with categories like GENERAL, CATALOG, and CUSTOMERS. The main content area is titled 'MageMob Inventory' and features a 'Save Config' button. The 'Inventory System Activation' section is expanded, showing the 'Enable Extension' dropdown set to 'Yes', which is highlighted by a red rectangle. Below this, the 'Supplier Select' section shows a dropdown also set to 'Yes', with a detailed tooltip explaining its function: 'If you select Yes, then this will show all suppliers while generating Purchase order otherwise it will show the suppliers related to that Products. If no supplier is selected for product then it will display all suppliers by default.' The bottom section is titled 'Inventory System Enterprise General Configuration'.

- Select “Yes” to enable the extension.

Step 2: Select Supplier

- Select “Yes” to show all suppliers in Purchase Order creation.

Step 3: Inventory System Enterprise General Configuration

- Refer step 1 “General Configuration” of basic version.

Step 4: Mange Suppliers

- Go to **MageMob Inventory → Manage Suppliers**. A grid of suppliers (if added) will be displayed. Click on “Add Supplier” to add new supplier.

Latest Message: Reminder: Change Magento's default phone numbers and callouts before site launch. You have 7 critical, 6 major, 19 minor and 67 notice unread message(s). [Go to notifications](#)

Associated products can be added to the supplier

- User can associate products to a particular supplier which he frequently buys from that supplier.
- Click on "Save Supplier" button. The supplier details will be added in the grid.

Step 5: Manage Stock

- It allows the admin to increase / decrease the quantity of the product rather than giving total quantity. The increased / decreased quantity will be directly reflected in selected warehouse.
- The warehouse can be selected from button given in the panel.
- They can also export these products in csv format but the decreased quantity must not be more then total available quantity in warehouse..

Manage Stock

Select Warehouse:

Step 11: Manage History

- Go to **MagMob Inventory** → **Inventory Log**. A grid of products altered using any action will be displayed.
- When the quantity of product is altered, it is traced here.
- Admin can get the idea of the product quantity, whether it is increased or decreased.
- It will keep a track from where & how much quantity of any product is altered.

Type of action using which quantity is altered

6. Quick Notes

Basic Version:

- php_soap and php_openssl PHP extensions should be enabled.
- Login with your created "Magento" user credentials to use our app.
- To ensure smooth working of this extension you need to download this extension in your website and also download MageMob Admin on your device from Play Store or App Store.
 - App Store link : <https://itunes.apple.com/us/app/magentomobilemanager/id695074519?mt=8&ign-mpt=uo%3D4>
 - Play Store link : <https://play.google.com/store/apps/details?id=com.biztech.magemobadmin>

Ultimate Version:

- Products in all the modules of MageMob Inventory will only be visible if they are assigned to the website selected while purchasing the Extension.
- Limit of quantity of product to be out of stock is configured from Magento admin.
- In Pending orders only those sales orders will be displayed which are placed from the store/website selected at the time of purchasing Extension.
- If same products are there in more than one pending orders selected for generating purchase orders, then you can remove the product from selection otherwise it will take the average of the unit cost entered for that product based on the summation of the required quantity entered.

All Set! Now, you are ready to use extension.

7. Technical Support

We welcome all forms of customized Magento e-commerce queries and deliver tailor-made Magento e-store solution, given your distinct business needs!

We provide all technical support! Get in touch filling in our online message form to contact our support team or shoot us an email at **support@biztechconsultancy.com**.
